SUMMARY

AI student with hands-on experience in Python, SQL, Java, Excel, and Power BI. Skilled in data analysis, data visualization, and basic machine learning concepts. Built academic projects focused on solving real-world problems using data. Seeking an entry-level role to apply analytical and programming skills.

TECHNICAL SKILLS

Programming: Python, Java, SQL
Data Tools: Excel, Power BI
AI/ML: Pandas, NumPy, Scikit-learn
Other: OOP, Data Analysis, Problem Solving

PROJECTS

Sales Data Analysis – Python, Power BI

- * Cleaned and analyzed datasets using Python (Pandas, NumPy)
- * Created interactive dashboards in Power BI for insights
- * Identified trends to support data-driven decision-making

Student Performance Prediction – Python, Machine Learning

- * Preprocessed academic data and handled missing values
- * Built and evaluated ML models using Scikit-learn
- * Improved prediction accuracy through feature selection

EDUCATION

Bachelor of Technology in Artificial Intelligence
New Prince Shri Bhavani College of Engineering and Technology
2023 -2027

CGPA: 7.5 / 10

ACHIEVEMENTS & ACTIVITIES

- * Actively learning AI and data analysis through online courses and practice
- * Building hands-on projects using Python, SQL, and Power BI
- * Improving problem-solving skills through coding practice and mini-projects
